

Are you prepared for

Inclement Weather

Think in terms of protecting life and property during inclement weather.

Some Necessary Precautions Include:

- **Employee Safety Comes First! Monitor radio and television advisories from the National Weather Service**
- **Stay inside -- even during the eye of the storm**
- **Ensure the availability of flashlights in the event of power loss**
- **Have a fire extinguisher ready in case of fire**
- **Store all perishable food in the Coolers and Freezers**
- **Raise stored goods off the floors in the event of flooding**

After the Storm

- **Drinking water and food may be contaminated -- be careful!**
- **There may be problems with gas or electricity. Contact the utilities if you suspect a leak or other problem. Report any downed power lines or any broken gas or water mains to the appropriate authorities.**
- **Look for any structural damage. Evacuate the premises if necessary.**
- **Do not go near fallen or low-hanging wires. Do not touch anything that comes into contact with them.**
