

Grill and Fryer Exhaust System Maintenance Quick Guide

MONTHLY	AS NEEDED	QUARTERLY	QUARTERLY OR SEMI-ANNUALLY (AS NEEDED)
Empty grease pans.	<p>Check exhaust fan belts; replace if worn.</p> <p>Adjust belt tension.</p>	Grease bearings on both exhaust fans using high-temperature grease .	Steam clean exhaust systems.

Hood Maintenance

DAILY	SEMI-ANNUALLY
Verify grill and fryer hood filters are cleaned daily.	Hood exhaust systems should be cleaned at least every six months by a qualified third-party vendor. Best practice is to ask vendor to provide before and after photos of the work performed.
<p>Check hoods for make-up air flow at front diffusers. Confirm the make-up air fan is operating.</p> <p>Drain grease from grill and fryer hood drain tracks and pans as needed.</p>	Grill and fryer exhaust flues should be cleaned every 12 months.

Regular preventive maintenance of cooking equipment and hood exhaust systems helps extend their lifespan. Well-maintained equipment uses less energy, performs more efficiently, and significantly reduces the risk of fires in the restaurant.
